Portfolio Overview

Cascadia Public Employees' Retirement System ("CPERS") retained Corvane Advisors ("Corvane") as investment manager to invest and manage its real estate portfolio ("Portfolio" or "Program") in 2001. Corvane was awarded discretion over the Program beginning in 2011. Since inception, approximately $0.46 billion has been committed or approved for commitment across 14 individual investment positions: 12 funded and carried in the flash, plus 2 approved during the Quarter that had not closed by Quarter-end. The funded investments have generated a since-inception net IRR of 9.3% and a 1.45x net equity multiple.

CPERS has allocated 10.0% of total plan assets to real estate, with an allowable range of 5-20%. At Quarter-end the Portfolio's net asset value was $0.44 billion, which is **8.8% of the $4.96 billion total plan** and **88.0% of the $0.50 billion target real estate allocation**. The Portfolio seeks long-term net nominal returns in excess of the CPERS Custom Benchmark (NCREIF ODCE, net of fees), and is diversified across property type, geography and strategy.

The Portfolio returned 1.28% net of all fees during the Quarter and 5.46% net over the trailing one-year period, against 0.70% and 2.66% respectively for the benchmark.

Investment Guidelines & Fund Statistics

Statistic	Value
Funded investments	12
Approved, not yet closed	2
Total committed or approved	$456.8M
Of which funded	$391.8M
Market value (NAV)	$436.1M
Real estate as % of total plan assets	8.8%
NAV as % of target allocation	88.0%
Strategic / Tactical split	85.0% / 15.0%
Since-inception net IRR	9.3%
Since-inception equity multiple	1.45x

Portfolio Managers

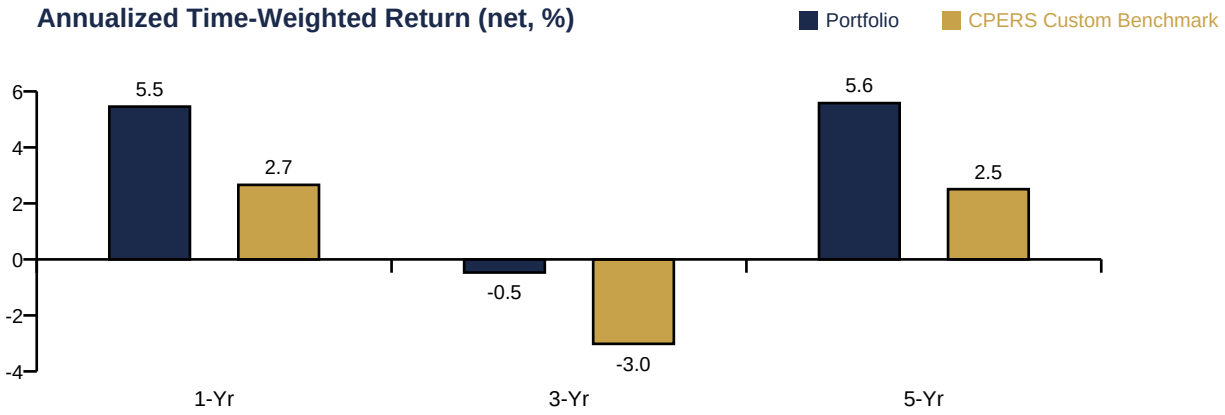
Marcus Ellison, Senior Managing Director • Marcus.Ellison@corvane.com

Priya Raman, Senior Principal • Priya.Raman@corvane.com

Devin Cho, Principal • Devin.Cho@corvane.com

Ana Reyes, Senior Analyst • Ana.Reyes@corvane.com

Annualized Time-Weighted Return



The Portfolio outperformed the CPERS Custom Benchmark across the one-, three- and five-year horizons shown above, returning 5.46% net over the trailing year against 2.66% for the benchmark.

Performance Update

The Portfolio generated approximately $3.3M of gross income and $3.3M of appreciation during the Quarter, resulting in a total gross return of 1.52% (1.28% net of all fees). The NAV of the Portfolio was $0.44 billion at Quarter-end.

Attribution: Quarterly Dollar Contribution

Fund	Role	Income	Apprec.	Fees	Contribution
Redwood Logistics Trust	Largest contributor and second-largest individual position	346,623	1,081,768	61,356	1,367,036
Ironwood Value-Add Fund III	Second-largest contributor	125,530	942,909	32,150	1,036,289
Meridian Opportunity Fund V	Largest detractor	(31,854)	(468,730)	(31,290)	(469,294)
Cornerstone Core Property Fund	Second-largest detractor and largest individual position	534,035	(557,954)	163,257	(187,176)

Redwood Logistics Trust was the Portfolio's largest contributor to performance during the Quarter, adding $1,367,036. It is also the Portfolio's second-largest individual position at $51.9M. **Ironwood Value-Add Fund III** was the Portfolio's second-largest contributor to performance during the Quarter, adding $1,036,289. **Meridian Opportunity Fund V** was the Portfolio's largest detractor, at -$469,294. **Cornerstone Core Property Fund** was the Portfolio's second-largest detractor, at -$187,176. It is also the Portfolio's largest individual position at $54.4M.

Strategic Portfolio

The Strategic Portfolio represented approximately 85.0% of the Portfolio's market value at Quarter-end and generated a 1.16% net return during the Quarter.

Cornerstone Core Property Fund was the Portfolio's second-largest detractor and largest individual position. The Fund returned -0.34% net during the Quarter on $534,035 of income and -$557,954 of depreciation, contributing -$187,176. Its market value was $54.4M at Quarter-end and it carried 28.2% LTV.

During the quarter, One Financial Plaza, the Fund's Chicago office asset, was written down on lower submarket comparables and a near-term lease expiry. Bayfront Apartments in San Diego was held roughly flat, as concessions offset rent growth. Prairie Logistics in Kansas City contributed positively, partially offsetting the drag from the office asset. Looking ahead, the Manager believes core valuations are stabilizing and expects income to remain the primary driver of return in the near term.

Beacon Diversified Property Trust returned 1.12% net during the Quarter, with a market value of $41.9M and 28.0% LTV.

Summit Multifamily Partners returned 1.22% net during the Quarter, with a market value of $48.6M and 22.2% LTV.

Whitfield Diversified Property Fund returned 1.04% net during the Quarter, with a market value of $30.8M and 50.0% LTV.

Silverline Core-Plus Fund returned 0.75% net during the Quarter, with a market value of $50.2M and 49.3% LTV.

Kestrel U.S. Real Estate Fund returned 1.66% net during the Quarter, with a market value of $49.7M and 25.3% LTV.

Redwood Logistics Trust was the Portfolio's largest contributor and second-largest individual position. The Fund returned 2.69% net during the Quarter on $346,623 of income and $1,081,768 of appreciation, contributing $1,367,036. Its market value was $51.9M at Quarter-end and it carried 31.1% LTV.

Gateway Logistics Center in Dallas was marked up following the completion of lease-up to 97% occupancy at rents ahead of underwriting. Harbor 40 Distribution in Savannah appreciated modestly on a new 10-year lease to an investment-grade tenant. Cedar Ridge Infill in the Inland Empire was held flat pending a planned expansion. The Manager remains constructive on infill logistics and expects income to be the primary return driver into 2026.

Harborview Industrial Fund returned 1.31% net during the Quarter, with a market value of $43.3M and 44.5% LTV.

Tactical and Special Situations Portfolio

The Tactical and Special Situations Portfolio represented approximately 15.0% of the Portfolio's market value at Quarter-end and generated a 2.02% net return during the Quarter.

Tidewater Distressed Realty Fund reported no quarterly return in the flash, with a market value of $0.1M and 0.0% LTV.

Ironwood Value-Add Fund III was the Portfolio's second-largest contributor. The Fund returned 10.22% net during the Quarter on $125,530 of income and $942,909 of appreciation, contributing $1,036,289. Its market value was $11.1M at Quarter-end and it carried 0.0% LTV.

The Fund's quarterly result was driven predominantly by appreciation as repositioning projects completed lease-up. Eastgate Industrial in Phoenix reached stabilized occupancy and was marked up materially. Northline Logistics in Nashville appreciated on completion of a build-to-suit. With the value-creation plan substantially executed, the Manager expects to pursue selective realizations over the coming quarters.

Meridian Opportunity Fund V was the Portfolio's largest detractor. The Fund returned -1.53% net during the Quarter on -$31,854 of income and -$468,730 of depreciation, contributing -$469,294. Its market value was $30.2M at Quarter-end and it carried 42.2% LTV.

No manager report was supplied for this Fund for the Quarter. Commentary is therefore limited to the flash-derived role, market value, return and dollar contribution above; no asset-level drivers are reported for the Fund this Quarter.

Blackford Special Situations Fund II returned 3.13% net during the Quarter, with a market value of $23.8M and 49.7% LTV.

Recent Investment Activity

During the Quarter the Investment Committee approved 2 new commitments for CPERS. Neither had closed or funded by Quarter-end; accordingly they are reflected here as new investment activity rather than in funded holdings or performance.

Northgate Logistics Partners: $40.0M, approved October 2025

Northgate Logistics Partners is a value-add industrial fund that targets the acquisition and repositioning of infill logistics and outdoor-storage assets in high-growth Sun Belt and Mountain-West markets. The strategy focuses on lease-up, the mark-to-market of below-market rents, and selective development completion.

Ridgeline Value Fund IV: $25.0M, approved November 2025

Ridgeline Value Fund IV is a closed-end diversified value-add fund that targets the acquisition and repositioning of multifamily and mixed-use assets in supply-constrained coastal and Mountain-West metros. The strategy emphasizes operational improvement, unit renovation and the mark-to-market of below-market rents, with selective ground-up completion.

The USD 25 million commitment to Alder Creek Multifamily Fund III approved in August 2025 was withdrawn during the Quarter; the Fund closed at its hard cap without an allocation to the client.

The USD 30 million commitment to Sentinel Logistics Income Fund approved in September 2025 lapsed during the Quarter; the approval expired unexercised on 30 November 2025 and is not being renewed.

Market Update

Core real estate values continued to recover following the significant 2023 to 2024 repricing, and U.S. private real estate fund returns have moved back into positive territory over the trailing year. U.S. private real estate funds returned **1.0%** net in the latest quarter and **3.3%** over one year, improving on the **+0.8%** and **+2.6%** reported last quarter, while the three-year return of **-2.4%** still carries the drawdown. The Portfolio's net return of 1.28% for the Quarter and 5.46% over one year sit above the market's **1.0%** and **3.3%** respectively; these market figures describe broad indices and are not the Portfolio's benchmark.

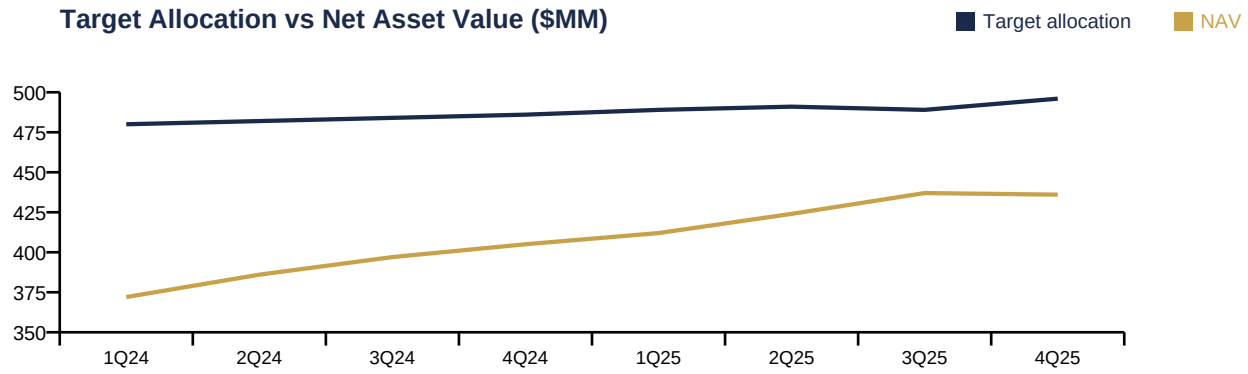
Capital markets continued to repair, with the NPI valuation-weighted cap rate at **4.6%** and the 10-year Treasury yield at **4.2%** in the fourth quarter of 2025, and the deck notes that the spread has re-widened versus the 2024 trough. Transaction activity is rebounding from cyclical lows as rate volatility eases and bid-ask spreads narrow. Office remains the outlier; transaction cap rates rose to **7.7%** in the fourth quarter from the **~6.3%** cited last quarter, against appraisal marks of **5.6%**, so the gap that narrowed last quarter has widened again and points to transaction values well below appraised values. The house view remains underweight office, favouring only best-in-class, well-located assets.

Forecast NOI growth for 2025 is led by residential at **2.2%** and industrial at **1.7%**, with office at **0.6%** and retail at **0.2%** lagging. Industrial, the deck's top overweight, returned **4.4%** net over one year and **10.2%** annualised over five years, compared with the **3.9%** and **10.6%** reported last quarter. This positioning is consistent with the Portfolio's largest property exposure, Industrial at 36.2%, and its second largest, Apartment at 23.5%, where the deck cites a widening own-versus-rent affordability gap supporting durable rental demand. Risks the deck names include a resurgence in rate volatility that could stall the transaction recovery, refinancing of 2020 and 2021 vintage debt at higher rates, which is most acute in office, and slower-than-expected supply absorption in select multifamily submarkets.

Market figures above are drawn from the house-view deck's exhibits and describe broad market indices. They are not the CPERS Custom Benchmark, which is a distinct client-specific series and is the basis for the return-objective test; the two are related but not interchangeable.

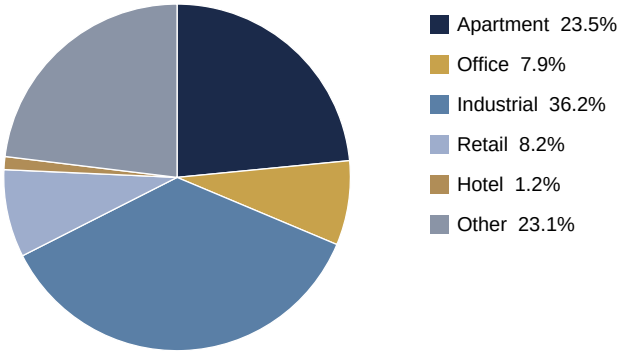
Allocation Over Time

Over the period shown the Portfolio's net asset value moved from $372M in 1Q24 to $436M in 4Q25, while the target allocation moved with total plan assets. At Quarter-end the net asset value of $436.1M compared with a target allocation of $495.6M.

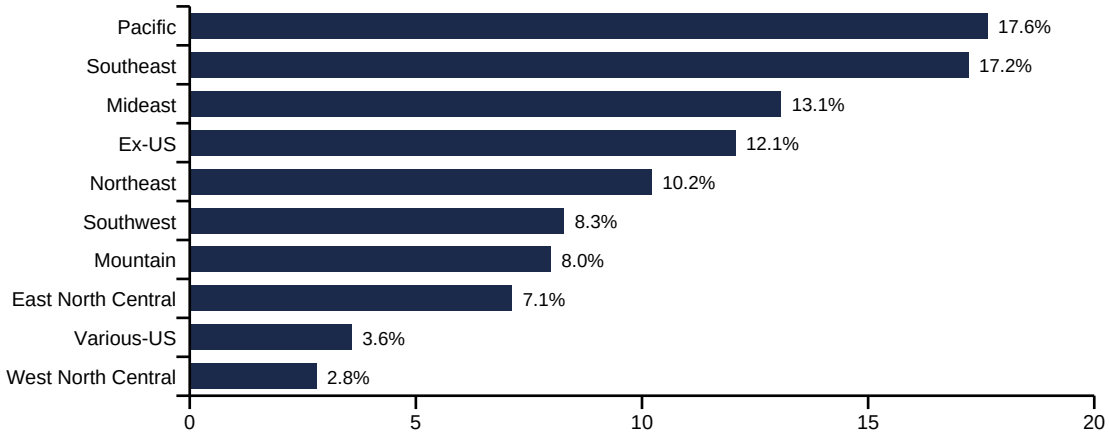


Diversification

Property Type Diversification



Geographic Diversification (% of market value)



Look-through Ex-US property exposure was 12.1%. The compliance test below uses the separate fund-level Ex-US classification, 9.6%; the two measure different things: one looks through to where the underlying assets sit, the other classifies the vehicle.

Compliance

Guideline	Limit	Actual	Status
Style / sector concentration	<=40% per sector	36.2% (Industrial)	In compliance
Location diversification	<=35% Ex-US	9.6% Ex-US	In compliance
Leverage (loan-to-value)	<=50% / 75%	34.0% strategic / 37.7% tactical	In compliance
Return objective	Exceed benchmark	5.46% vs 2.66% (1-Yr)	In compliance

Leverage is reported using the value-weighted loan-to-value subtotals for each sleeve, not an average of individual fund ratios.

Disclosure Statements

This Performance Measurement Report has been prepared by Corvane Advisors solely for Cascadia Public Employees' Retirement System and is intended for the exclusive and confidential use of CPERS and its authorized representatives. Performance results are presented net of investment management fees, incentive allocations and fund-level expenses unless otherwise indicated, and reflect the reinvestment of income. Returns for periods of one year or less are not annualized. Time-weighted returns (TWR) are calculated using a Modified Dietz methodology; since-inception internal rates of return (IRR) and equity multiples are money-weighted and reflect the timing and magnitude of capital flows. Market values are based on the most recent valuations reported by underlying fund managers and may reflect appraised rather than transaction values. Past performance is not indicative of future results. All figures in this report are synthetic and were created solely for an evaluation exercise.

Appendix A: Quarterly Flash Report
